ABOUT ME

Developer with hands-on experience in Laravel, PHP, Python, JavaScript, and MySQL, building web applications, automation tools, and browser extensions. Built and deployed practical projects including full-stack applications, e-commerce scraping tools, and published browser extensions. Focused on clean, maintainable code, API integrations, database-driven solutions, and solving problems through technology.

SKILLS

- Languages: Python, JavaScript, Php, HTML, CSS
- Frameworks: Laravel, Selenium, Scrapy, BeautifulSoup
- Databases: MySQL, Redis
- Web Scraping, Git, GitHub
- Digital: SMM, Content Creation, Digital Marketing

WORK EXPERIENCE

- **TransGlobe Education – Social Media Manager & Coder:**
Managed social media strategy, content creation, copywriting, and digital marketing across multiple accounts while contributing to web development and technical tasks.
- **Netclues Technologies – Laravel Backend Dev:**
Making live production changes and maintaining folder structure for full-stack Laravel (MVC) applications. Handled performance improvements and security hardening.
- **Jashvi Infotech – Freelance Graphic Designer & Video Editor:**
Designed and produced social media content (graphics, reels) to strategically boost client business growth.
- **Imbuesoft LLP – Digital Marketing Intern:**
Executed digital marketing campaigns to boost Vistaderm's brand visibility and client business.

SOFT SKILLS

- Team Building
- Creativity
- Critical Thinking

PROJECTS

- **Flutter Recon**
Built a browser extension that detects Flutter-powered websites, analyzes source maps and publicly accessible resources, fingerprints third-party packages, and identifies technologies used in Flutter Web applications.
- **Price Scraper**
Developed an automated Python price scraper using Scrapy and MySQL to collect and process product data from 5+ e-commerce sites, supporting scheduling, error handling, and price comparison.
- **Ghost Clean** **PUBLISHED ON FIREFOX**
Built and published a Firefox extension that instantly clears browsing data including history, cookies, cache, downloads, and passwords with a single click.
